34 FESTIVAL LES INSTANTS VIDÉO (2021)

Since 1988, the festival **Les Instants Vidéo** is an event dedicated to video, digital and poetic arts (monobands, installations, performances, multimedia...). It takes place every November in Marseille Friche la Belle de Mai, but either before or after, we act in concert with partners to organise the festival stopovers in other spaces in Marseille, the Region... and abroad. We like to name the whole stopovers a **poetronic constellation**. There is **no competition**, the **entrance is open and free**, as well as the call for participation open from January to June. It is all together a festival and a laboratory where international renowned artists and works of arts can meet with works that are more fragile, still in progress, delicate. This edition is special as it will be the last one to be artistically run by the founder of the festival, Marc Mercier. The festival will be the threshold of another era an experience born 34 years ago.

From November 3, to February, 13 you are invited to follow us in our local and international itinerary: exhibitions, screening programs, performances, encounters.

The Festival will take place this year

in Marseille:

- *Ephemeral Popular Galleries Hotel Le Ryad* (<https://www.leryad.fr/>), ADPEI, & SARA in Marseille – November, 4 to February, 13

Caring

All the festival is accessible to people with reduced mobility. We try our best to welcome you. Please contact us if you wish to prepare your visit. For groups, we offer a conversation tour of our exhibition. Get in touch to book yours with Tiffanie Taveau: 04.95.04.96.24 publics@instantsvideo.com

A sustainable approach

Since quite long now, the festival is engaged in a sustainable and inclusive approach: local and responsible suppliers, waste sorting, environmental footprint reduction (eco-friendly and public transportation), an integrated communication and an "Imprim'Vert" certified printer, the use of biodegradable or recyclable materials (plates, cutlery...).

In the same spirit, there is no VIP service, nor competition between artists....

Our commitment in term of ecology is just a part of larger effort in favour of a Human sustainable development: it follows the ethical, political and poetical commitment that is also guiding our aesthetic choices as well as the kind of relations we want to weave with our «audiences», our partners and within our association.
